make IT work for you…

Supporting your Business

Making IT work for you lets you focus on running your business while we take away the hassle...

As a small business you know you how much you have to multi-task and managing multiple supplier relationships can make things worse.

Choosing Concept IT not only provides you with a supplier who understands and cares but a partner who can simplify your business relationships with only one point of contact to help you with support, facilities, communications and software.

Drive Productivity

Concept IT has a suite of solutions and services to enable your business to perform at its optimum.

From Cloud computing to on-premise solutions, Concept can make child's play of collaborative working, and anywhere access.

Your staff will enjoy having unlimited access to our help desk and technical support whenever they need it.

Letting us take care of the system enables your staff to concentrate on what they should be doing—driving your business forward.

Save time & money

Our solutions give you the flexibility of choosing how to build your infrastructure. Infrastructure-as-a-service, software-as-a-service or pay-as-you-use save you money and release you from large capital investments.

Our proven policies and procedures give you the system you need as quickly as possible.

Knowing that whatever happens with your system you're covered with one fixed monthly fee makes budgeting simple.

Stay informed & in control

Know what's happening across your entire business with access to our Customer Portal.

Use our anywhere-access solutions to be productive wherever you are whilst accessing all the information you need when you need it.

Keep your private data and corporate IP safe and secure using our Private Cloud services and by-pass the risks of public drop-boxes or information getting in to the wrong hands.

Protect against Threats

Knowing that each and every machine in your business network is constantly up to date ensures that the risk of virus infection or attack is minimised.

Your staff don't have to remember to update the system themselves or make sure connected to the right system—as long as there's internet, the machine will be up to date.

Our Content Filtering and Anti-Spam security services enable your staff to confidently work with emails and the internet.

fully connected scalable solutions

Friendly, Innovative, Supportive

Concept IT uses our Managed IT services as the core service around which everything else is built. Understanding your business is key to the success of any system and service which your business needs. From this base, our solutions can be tailored to your needs.

How we can help you!

On-Premise Solutions
Cloud isn't right for every business and having an on-premise solution can be invaluable. Using solutions from HP, Cisco and Microsoft your business can leverage technology to increase agility.

Cloud Computing
Public, Private and Hybrid cloud solutions can enable your business to become dynamic, flexible and agile without the need for large capital projects. Concept Cloud does just that. Giving you access to the facilities you need now whilst having the facilities you need later at the flick of a switch.

Connectivity and Communications
Communication is king. Ensuring you have always-on robust and reliable telephony, email and internet access is critical to the success of your business. Using best of breed systems and connections allows Concept IT to keep you connected.

Managed IT Services and Support
Managed IT Services from Concept IT gives you the reassurance that whatever happens you're in safe hands. We manage all aspects of your infrastructure so you can concentrate on what matters to you—your business.

Backup and Disaster Recovery
Ensuring your data is safe is only half the story. Ensuring you can use it again—quickly and easily can make the difference between profit and loss. Concept has a portfolio of backup and disaster recovery solutions to protect your business whatever it's size.

Security, Productivity and Compliance
Security is all about layers of protection. By employing layers of protection covering email, internet usage, endpoints and users you can have the confidence that your business is operating in a safe environment.

Managed IT Services from Concept IT. For a fixed monthly fee you can budget your IT expenditure for the entire year with the reassurance that whatever happens you're in safe hands. We manage all aspects of your infrastructure so you can concentrate on what matters to you—**your business**.
